PUPIL NUMBERS  
BURSARIES/SCHOLARSHIPS  
SCHOOL FEES  
TEACHER/PUPIL RATIO  
UNIVERSITY ENTRANCE

independent  
schools  
council

### 1. Numbers continue to rise:

There are now over 509,000 children in ISC member schools.

### 2. Fee assistance increases:

Almost one third of pupils at ISC schools receive some kind of assistance in paying fees. A quarter of all ISC school pupils now receive some financial assistance directly from the school. There has been a steady rise in the number of pupils helped in this way since the end of Government Assisted Places. This help is worth over £300 million annually.

### 3. New figures on total numbers of overseas pupils:

Figures on the total number of non-British pupils whose parents live overseas – collected for the first time – show that there are over 20,000 – representing an input of over £350 million to the UK economy.

### 4. Lowest ever pupil/teacher ratio:

There is now one teacher for every 9.7 pupils in ISC schools.

### 5. High level of pupils going on to Higher Education is maintained:

92.4% of post A-level leavers went on to Higher Education this year.

### 6. Over £700 million spent on capital projects in the financial year to 2006:

This includes £55 million on Information Technology – measured for the first time this year.

## PUPIL NUMBERS

Overall pupil numbers in ISC member schools have increased to 509,093 from 505,450 in 2006. 67,335 pupils are boarders and 441,758 are day pupils. They attend 1,276 schools belonging to the heads' associations within the Independent Schools Council (ISC). 1,048 (82%) of these schools have charitable status. Pupils in ISC schools account for more than 80% of the total number of pupils in independent schools in the UK. The UK independent sector as a whole educates 620,000 children in around 2,500 independent schools.

There has been a small rise in the number of pupils in the 1,252 schools which participated in both the 2006 and 2007 surveys. In these schools there are 504,299 pupils in 2007 compared with 503,797 in 2006, a rise of 502 (0.1%).

In addition:

- In the nursery age range (0-4) numbers rose from 41,170 to 41,794 (1.5% rise)
- In the primary age range (5-10) numbers dropped from 160,041 to 158,985 (0.7% fall)
- In the secondary age range (11-15) numbers fell slightly from 222,833 to 222,263 (0.3% fall)
- In the sixth form age range (16-19) numbers rose from 79,753 to 80,958 (1.5% rise).

The slight fall in primary numbers is due to the sharp fall in birth rate around the years 1999-2001 – numbers have dropped by a much higher percentage in recent years in the state system. The rise in the number of sixth formers indicates continuing confidence in the independent sector as preparation for Higher Education. Extensive research from ISC indicates that there is no evidence of bias in the university application process.

For more details refer to **Table 1, APPENDIX ONE.**

	503,797	

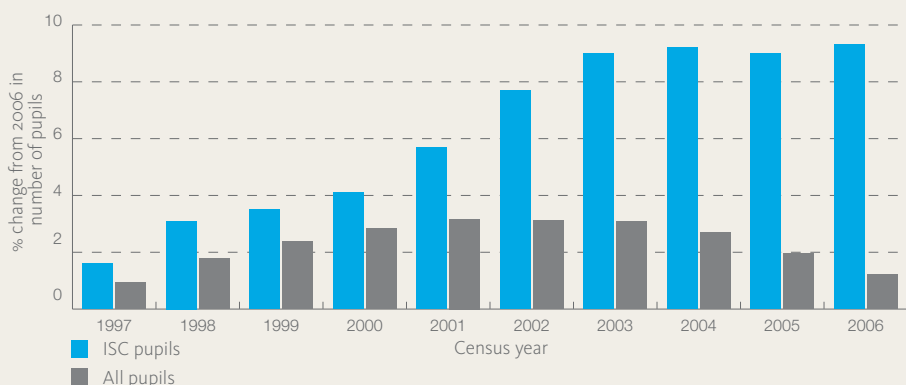

This graph shows the year-on-year percentage changes in the number of ISC pupils from 1985-2007.

**Fig 3.** % changes in pupil numbers since 1985

This graph compares the percentage change from 1996 in the number of ISC pupils and the number of all pupils in England from 1997-2006 (the DfES have not yet published figures for all pupils in 2007).

**Fig 4.** % changes in pupil numbers for ISC schools and all schools 1997-2006

This year we have changed our methodology for calculating average fees, taking into account different fees for different age groups within schools. The figures calculated under this more accurate method can be seen in **Fig 5**. below. We have also calculated fees using the old method to provide a comparison with 2006 figures. Fees calculated under the old method can be seen in **Fig 6**.

Using the old method for the purposes of comparison, fees have gone up 5.9% this year. While the media often describe school fee rises as “inflation-busting”, this figure is in line with service inflation figures for the past year. The standard inflation rate can be broken down into “goods” inflation and “service” inflation. The former has been very low in recent years because of imports from the Far East; the latter much higher. In January, goods inflation was running at 1.7% (it was as low as 0.8% last September), while service inflation was running at 6.1%.

This table shows average termly fees according to our new methodology. See **Table 4, APPENDIX ONE** for more detail.

**Fig 5.** Average fees January 2007 (new methodology)

	Termly fee
Boarding	£6,712
Day fee (boarding schools)	£3,715
Day fee (day schools)	£2,707
Overall day fee	£2,885
Overall average	£3,391

School fees, therefore, are rising for the same reasons that costs for other services are rising; staff costs, utilities prices and limited supply. Salaries of teachers and other staff are the largest items of school expenditure, accounting for around two thirds of a school's costs. In addition, there have been further increases in employer contributions to teachers' pensions this year from 13.5% to 14.1%. Furthermore, rises in utility prices - especially energy - have been exceptionally high over the past few years.

Fee increases have also financed continued capital expenditure on new buildings, renovations and equipment. During 2006, schools spent over £700 million, or £1,387 per pupil, on capital projects. This year, we measured expenditure on IT for the first time and found that schools spent £55 million, or £108 per pupil, on IT equipment in 2006 (see **Table 7, Appendix One** for details). The figures are different in the comparative capital spending (see **Table 6, Appendix Two**) because of the new categories added this year.

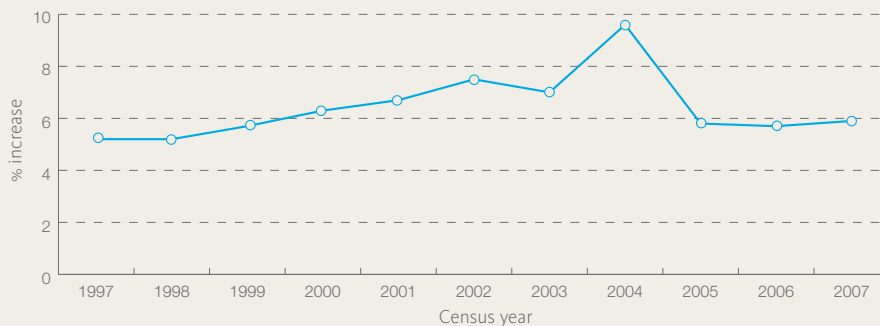

This table shows average termly fees according to our old methodology, with percentage changes since 2006. See **Table 4, APPENDIX TWO** for more detail.

**Fig 6.** Average fees January 2007 (old methodology)

	Termly fee	%change since 2006
Boarding	£6,990	5.6%
Day fee (boarding schools)	£3,808	6.3%
Day fee (day schools)	£2,930	6.4%
Overall day fee	£3,209	6.3%
Overall average	£3,714	5.9%

This graph shows the year-on-year percentage increases in fees from 1997-2007.

**Fig 7.** % increase in average fees since 1997

## CONTRIBUTIONS TO FEES

In schools that returned a census in both 2006 and 2007, the number of pupils who are helped with their fees has increased by 4,998 (3.4%): up from 153,809 to 158,807. This represents 31.5% of all pupils in these schools, of which 79% are helped by their school: up from 121,171 to 125,331. This is a rise of 4,160 (3.4%). 24.9% of all children in these schools receive financial help from their school: up from 24.1% last year.

The increasing number of children receiving help with fees from schools is a trend that began in the recession of the early 1990s as more families needed bursaries to enable

pupils at crucial examination stages to remain at the school. It has been boosted in recent years as schools have provided more financial help to compensate for the loss of Government Assisted Places. Since numbers on assisted places reached their zenith of 40,331 in 1998, the number of pupils helped by schools has increased by 36,937, almost making up the difference.

The value of assistance from schools is worth well over £300 million a year, with a relatively even balance between means-tested and non-means-tested awards.

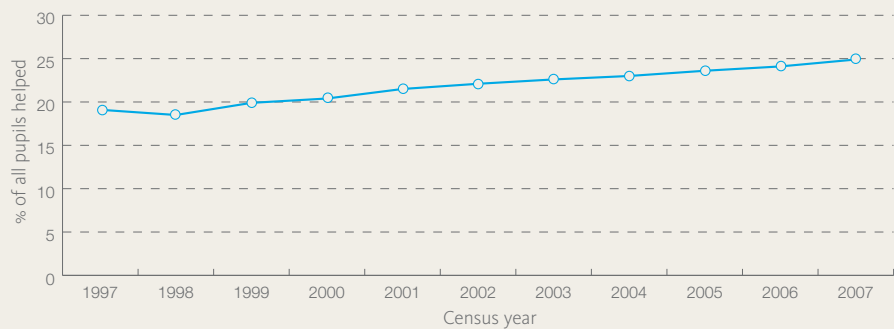

This table shows the number of pupils at all ISC schools receiving contributions to fees. Contributions from local authorities include help given for special educational needs. The table does not include assistance from HM Forces and Diplomatic Allowances or help given to children of staff.

**Fig 8.** Number of pupils receiving contributions to fees

	Number of pupils	% change since 2006	% of all pupils
The school	125,331	+3.4%	24.9%
Early Years Funding	27,131	+1.1%	5.4%
Government Music and Dance Scheme	1,180	-2.5%	0.2%
Local Education Authorities	1,394	+3.3%	0.3%
All other sources	3,771	+16.3%	0.8%
<b>Total</b>	<b>158,807</b>	<b>+3.4%</b>	<b>31.5%</b>

This graph shows the percentages of all pupils in ISC schools receiving help from their school from 1997-2007.

**Fig 9.** % pupils receiving help from the school

In schools that returned a census in both 2006 and 2007, the number of full-time equivalent teachers has risen to 51,957 up from 51,003 in 2006 (a 1.9% rise). The number of hours worked by part-time teachers has also increased from 204,063 to 213,382 (4.6%). This has led, in these schools, to another fall in the pupil/teacher ratio to 9.71 from 9.88 in 2006. The weighted pupil/teacher ratio (with each sixth former counted as two) was 11.27; down from 11.44 last year.

The continuing fall in the pupil/teacher ratio indicates two things. Firstly, the importance of low class sizes to parents with children at ISC schools. Secondly, ISC schools' determination to continue to teach a wide range of subjects,

even if it is uneconomic to do so. Many schools, especially at sixth form level, keep subjects such as classics and music on the curriculum, despite very small class sizes, because they do not want to limit their pupils' options.

Teacher turnover, as a proportion of the number of full-time staff employed, rose slightly to 13.8%. 2,009 teachers from maintained schools took up posts in ISC schools, while 606 moved from ISC schools into the maintained sector. This ratio of movement between sectors is similar to that of recent years. See **Table 15, Appendix One** for detail on ISC's full membership and **Table 9, Appendix Two** for comparative information.

This table shows the number of teachers in ISC schools together with the pupil/teacher ratio. Where sixth form weighting has been applied, each sixth former has been counted as two. For more detail on comparative figures see **Table 8, APPENDIX TWO**; for more detailed figures for all ISC schools see **Table 14, APPENDIX ONE**.

**Fig 10.** Teachers and pupil/teacher ratio

Raw	2007	2006
	9.71	9.88
With sixth form weighting	11.27	11.44

This year, for the first time, ISC has collected figures for the total number of overseas students in ISC schools (See Fig 11 and Table 8, Appendix One). This shows that in ISC schools, there are 20,852 non-British pupils whose parents live overseas. Over 40% of these pupils come from Hong Kong and China, with Germany providing the next highest number.

Turning to comparative figures, this year has seen a small fall of 437 in the number of new non-British students whose parents live overseas (4.9%). The fall is almost entirely due to a drop in the number of students from Hong Kong. Numbers from China and Germany continue to increase, due to the growing wealth of China and the growing popularity of UK

school and university education in Germany. Russia and the remainder of Europe (predominantly Eastern Europe) continue to see steady growth as the middle-classes in these countries expand. Detailed comparative figures can be found in Table 7, Appendix Two and figures for the full ISC membership can be found in Table 9, Appendix One.

The estimated value to the UK economy of overseas students has increased to £356 million from £322 million in 2006. Many of these students remain in the UK for their Higher Education, giving additional financial benefit to both the UK economy and to UK universities.

This table shows the total number of non-British pupils whose parents live overseas, broken down into countries/areas of parental residence. For more detailed figures, see Table 8, APPENDIX ONE.

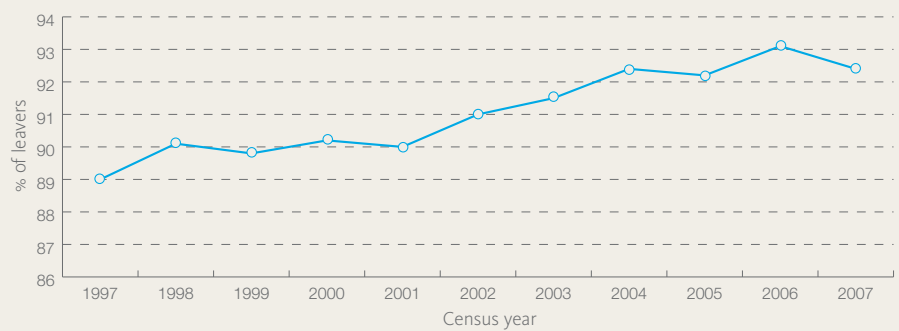

Fig 11. Total number of non-British pupils whose parents live overseas

	Number	% of total overseas pupils
France	489	2.3%
Germany	1,888	9.1%
Russia	816	3.9%

Australasia	237	1.1%
<b>Total number of pupils whose parents live overseas</b>	<b>20,852</b>	

The vast majority of independently educated school leavers continue to enter Higher Education. A total of 92.4% of sixth form leavers went on to higher education (see **Table 10, Appendix One**). In general, girls' schools recorded the highest proportion of leavers (94.9%) going on to Higher Education.

This graph shows the percentage of all ISC pupils entering Higher Education each year from 1997-2007. For more detailed information on the various destinations of post A-level leavers, see **Table 10, APPENDIX ONE**.

**Fig 12.** Post A-level leavers going to Higher Education

**Table 11, Appendix One** records sizes of schools. Each figure under the association headings represents the number of schools whose total pupil rolls are within the stated range.

**Table 12, Appendix One** shows percentages of boarders: there are 737 schools with only day pupils and, at the other end of the scale, 33 schools with 90 per cent or more boarders. **Table 13, Appendix One** gives boy/girl ratios. There are 133 all-boy schools and 185 all-girl schools; the others are co-educational in varying proportions.

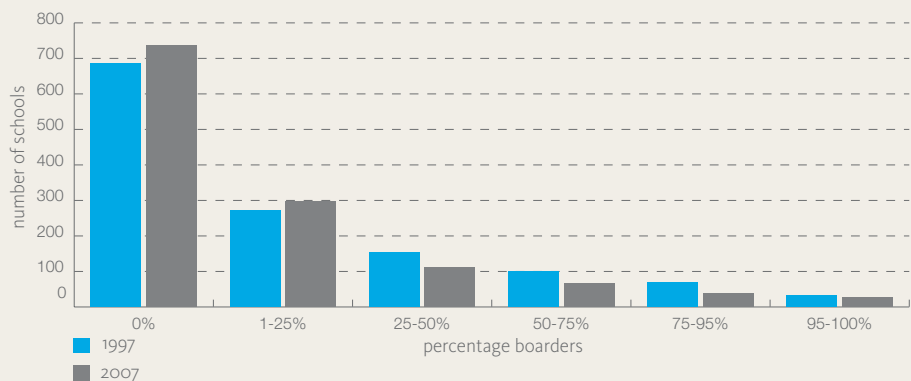

**Fig 13.** and **Fig 14.** show how these characteristics have changed over the past ten years. The number of day-only schools has grown significantly and there has been a steady

diminution in the number of schools where boarders are in the majority. The number of the most common type of 'mixed economy' school, however, (with up to a quarter of their roll as boarders) has scarcely altered.

The last decade has seen a very significant decrease in the number of boys-only schools and in those with a large majority of boys. The number of girls' schools has also decreased, though less dramatically. The commensurate growth has been in the number of co-educational schools with a slight majority of boys, but there is still clear demand for girls-only education.

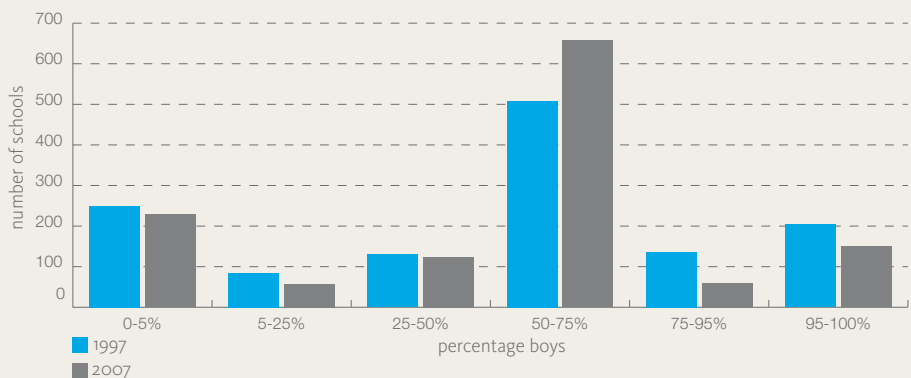

This graph shows all ISC schools grouped by their percentage of boarders and compared with the equivalent groupings from 1997. For more detailed information, see **Table 12, APPENDIX ONE.**

**Fig 13.** Boarding/day ratios

This graph shows all ISC schools grouped by their percentage of boys and compared with the equivalent groupings from 1997. For more detailed information, see **Table 13, APPENDIX ONE.**

**Fig 14.** Boy/girl ratios

## Tables in Appendix One give information for all schools replying to the census this year

This table gives total school and pupil numbers, including a breakdown by ISC association. Where schools are a member of more than one association, they are counted in this table as a member of one association only.

**Table 1.** School and pupil numbers (single association membership)

	HMC	SHMIS	GSA	IAPS	ISA	Total
<b>Schools</b>						
Charities	244	64	193	416	131	1,048
Others	5	3	2	84	134	228
<b>Total</b>	<b>249</b>	<b>67</b>	<b>195</b>	<b>500</b>	<b>265</b>	<b>1,276</b>
<b>Pupils:</b>						
Boarders (boys)	26,868	3,546	13	6,878	1,895	39,200
Boarders (girls)	11,798	2,342	9,640	2,972	1,383	28,135
Day pupils (boys)	104,447	13,057	2,465	71,196	29,996	221,161
Day pupils (girls)	44,322	9,064	90,335	49,814	27,062	220,597
<b>Total (boys)</b>	<b>131,315</b>	<b>16,603</b>	<b>2,478</b>	<b>78,074</b>	<b>31,891</b>	<b>260,361</b>
<b>Total (girls)</b>	<b>56,120</b>	<b>11,406</b>	<b>99,975</b>	<b>52,786</b>	<b>28,445</b>	<b>248,732</b>
<b>Grand total</b>	<b>187,435</b>	<b>28,009</b>	<b>102,453</b>	<b>130,860</b>	<b>60,336</b>	<b>509,093</b>

These columns represent the full membership of each heads' association. Schools can be members of more than one association. The numbers do not add up to the total ISC membership.

This table also gives total school and pupil numbers, including a breakdown by ISC association. However, columns in this table represent the full membership of each association. Where a school is a member of two associations, it is counted twice. Numbers do not, therefore, add up to the total ISC membership.

**Table 2.** School and pupil numbers (multi-association membership)

**Table 6.** Number of pupils receiving contributions to fees

This table shows the number of pupils at all ISC schools receiving contributions to fees, broken down by the source of assistance. Contributions from local authorities include help given for special educational needs. The table does not include assistance from HM Forces and Diplomatic Allowances or help given to children of staff.

	HMC	SHMIS	GSA	IAPS	ISA	Total	% of all pupils
<b>Local Education Authorities</b>	246	166	225	90	676	1,403	0.28%

**APPENDIX TWO**  
**COMPARATIVE TABLES**

Tables in Appendix Two show comparative figures for the 1,252 schools that participated in both the 2006 and 2007 census. In each table, the 2006 figures are printed underneath 2007 figures in lighter coloured rows.

This table gives total school and pupil numbers for schools that participated in the Census in both 2006 and 2007, including a breakdown by ISC association. Where schools are a member of more than one association, they are counted in this table as a member of one association only.

**Table 1.** School and pupil numbers (single association membership)

	HMC	SHMIS	GSA	IAPS	ISA	Total	
Number of schools	249	66	195	492	250	1,252

	54,614	11,274	101,483	51,403	27,348	246,122	0.22%
Grand total	187,435	27,528	102,453	129,589	57,294	504,299	
	185,994	27,503	103,651	128,807	57,842	503,797	0.10%
% change	0.77%	0.09%	-1.16%	0.61%	-0.95%	0.10%	

This table also gives total school and pupil numbers, for schools that participated in the census in both 2006 and 2007, including a breakdown by ISC association. However, columns in this table represent the full membership of each association. Where a school is a member of two associations, it is counted twice. The numbers do not, therefore, add up to the total ISC membership.

**Table 2.** School and pupil numbers (multi-association membership)

	HMC	SHMIS	GSA	IAPS	ISA

**Table 5.** Number of pupils receiving contributions to fees

This table shows the number of pupils at ISC schools that participated in the census in both 2006 and 2007 receiving contributions to fees, broken down by the source of assistance. Contributions from local authorities include help given for special educational needs. The table does not include assistance from HM Forces and Diplomatic Allowances or help given to children of staff.
