INDEPENDENT SCHOOLS INFORMATION SERVICE

Statistical Survey of Independent Schools - January 2000

These tables contain information derived from a survey carried out in January 2000 among members of :-

HMC	-	boys' and coeducational schools whose heads are members of the Headmasters' and Headmistresses' Conference and whose governing bodies are members of GBA
SHMIS	-	schools whose heads are members of the Society of Headmasters and Headmistresses of Independent Schools, most of whose governing bodies are members of GBA
GBA	-	boys' and coeducational schools whose governing bodies are members of the Governing Bodies Association
GSA	-	girls' schools whose heads are members of the Girls' Schools Association and whose governing bodies belong to GBGSA
GBGSA	-	girls' schools whose governing bodies are members of the Governing Bodies of Girls' Schools Association
IAPS	-	schools whose heads are members of the Incorporated Association of Preparatory Schools
ISA	-	schools whose heads are members of the Independent Schools Association
ISBA	-	schools whose bursars are members of the Independent Schools' Bursars Association

The information relates to January 2000, except that expenditure on buildings and equipment is for the financial year ending at various dates in 1999.

ISIS CENSUS 2000 INTRODUCTION

by David Woodhead, National Director ISIS and Deputy General Secretary ISC

Almost 4000 more pupils

- **ISC-member schools have gained 3,812 extra pupils in the past year – a rise of 0.8 per cent – bringing the total to more than 484,000. Numbers have risen for five years in succession and in thirteen of the past eighteen years of the Census.**
- Growth has been achieved despite a second year in which there was no fresh intake of children on the government Assisted Places Scheme to replace the 6,800 who left in 1999.
- Schools have invested record sums in providing new facilities.
- More pupils than ever before are receiving help with fees.

The Census in detail

There are 1,280 schools belonging to associations within the Independent Schools Council (ISC); all are in the United Kingdom except for five in the Irish Republic. (The Council consists of the leading associations of governors, heads and bursars [described on the inside front cover]. National ISIS is its information, media and public relations arm.)

Between pages 6 and 12 of this publication the tables and commentaries summarise the main statistics and percentage changes between 1999 and 2000.

The total population of pupils aged up to 19 in ISC schools on Census Day in January 2000 was 484,052, including 414,527 day boys and girls and 69,525 boarders. [Table 1, page 13]

However, in order to compare like with like, results from schools in the current year are compared with results from those same schools for 1999. That is why the number of schools included in Table 1 differs from the number in the subsequent comparative tables.

Comparisons are made, therefore, between the 1,267 schools which participated in this Census and

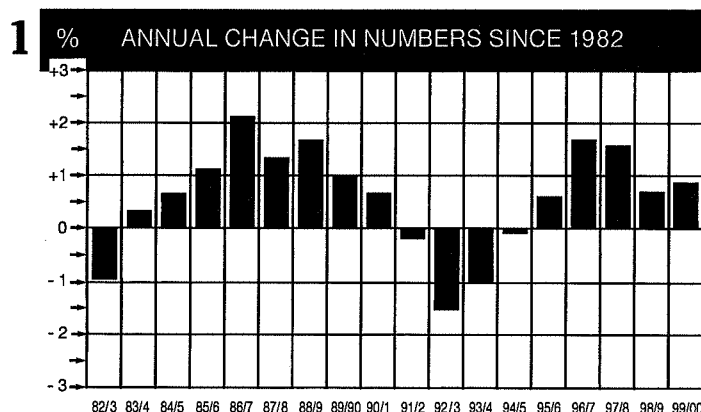

in the 1999 survey. In these schools there are 481,196 pupils in 2000 (the figure printed in bold in the top line of the comparative table), whereas there were 477,384 in 1999 (the figure immediately below), giving the net increase of 3,812 or 0.8 per cent [Table 2, page 13].

Table 2 differentiates between day and boarding boys and girls. It shows a rise of 1.4 per cent in day pupils (boys up by 1.1 per cent, girls up by 1.7 per cent). Among all pupils (after taking account of boarders) the changes are: boys up by 0.4 per cent, girls up by 1.2 per cent. The drop in boarding numbers of 2.6 per cent is less than in the previous year and similar to that recorded in 1997 and 1998.

The same page records a continuing improvement in staff:pupil ratios, to 1:10.6 across all schools and 1:12.2 weighted for sixth-forms.

Graph 1 traces changes in overall pupil numbers in the eighteen ISIS surveys produced on the present comparative

basis. Numbers fell at the beginning of that period, affected by the recession of the early 1980s. Between 1984 and 1991 there were eight years of continuous growth. In 1992-95 numbers were again affected by recession, small percentage drops in numbers occurring despite buoyant day pupil recruitment. Growth has resumed since 1995: by 0.6, 1.7, 1.6, 0.7 and 0.8 per cent in successive years.

Eighty per cent of independently-educated pupils are in ISC schools. ISIS statistics reflect trends among the total of 2,400 independent schools educating more than 600,000 pupils in the whole UK independent sector. However, the proportion of pupils who are boarders in ISC schools (14.4 per cent) is slightly higher than in non-ISC schools, whereas new day schools are under-represented. The latter take time to become sufficiently established to gain accreditation and admission to the governors' and heads' associations constituting ISC.

ISIS figures must also be seen in relation to trends among children of school age nationally. Maintained school rolls have been rising for nine years, after a long period of declining numbers arising from demographic factors in the 1970s and '80s. For example, Department for Education & Employment (DfEE) statistics show that maintained school rolls in England increased by 0.6 per cent in 1998-99 (the most recent available). [Under-5s rose by 0.5 per cent; 5-10 year-olds fell by 0.01 per cent; 11-15 year-olds rose by 1.5 per cent. Over-16s attending sixth-form colleges are included in government further education, not school, statistics.]

Table 3, page 14 records the ages at which pupil numbers have risen or fallen in ISC schools between 1999 and 2000. Numbers have risen at eleven of the eighteen ages. Among under-5s the cumulative growth is 1.1 per cent: this is the smallest increase ever recorded in an ISIS Census, suggesting that the nursery or kindergarten departments of ISC schools are approaching full capacity.

In the 5-10 age group the cumulative growth is 2.2 per cent. Growth in the traditional preparatory school age range (8-13) is 0.9 per cent. Among 11-15s there is growth of 0.7 per cent – the first rise in this age group since 1992, indicating that the growth in junior school numbers in recent years is feeding through into senior schools. At the top end of the age range there is a cumulative drop among 16-19 year-olds of 2.0 per cent (less than in the previous year).

Resilience after assisted places

Senior schools have been affected for two years by the absence of an intake of government assisted place pupils. A separate survey of 579 schools with assisted places (including Scotland) shows that the number of *these* pupils dropped from 32,385 to 25,530 – a reduction of 6,855 – as one cohort left in 1999 and was not replaced by a new intake. But the *total* number of pupils in those schools rose by 1,707 or 0.6 per cent.

So the former assisted place intake has been made up and exceeded by a combination of full fee-payers and pupils supported by bursaries or scholarships. And the total number of *new* pupils recruited by those schools also increased, by 1,567, or 2.8 per cent (whereas as they dropped in the previous year).

This resilience of schools adjusting to the loss of assisted places is very encouraging. It shows the attractiveness of their educational excellence to parents and the success of schools' efforts to provide their own financial support for families unable to afford the full fees. Once again the number of pupils receiving help from schools has increased (see below). An additional 3,600 pupils in these schools alone now receive help of this kind, an increase of 5.9 per cent.

The loss of government assisted places is, however, having an effect on the socio-economic composition of schools, as we first noted last year. A smaller proportion of pupils is entering independent senior schools from maintained primary schools. In 1997-98, recruits from maintained schools made up 34.1 per cent of all new entrants; last year that proportion fell to 31.3 per cent. This year it is down again, to 29.9 per cent – a drop of 4.2 percentage points in the two years since the phasing out of assisted places began.

Table 3A illustrates the increasingly flexible use of schools' boarding facilities by day pupils, particularly (but by no means exclusively) in preparatory schools. Most schools with boarders also have day pupils. They are asked to record day pupils who board for one night or more: 24,778 day boys and girls (an increase of 76.3% compared with 1999) spent 133,445 nights in school during the year (an average of 5.4 each).

School costs and fees

Fee increases in 1999-2000 averaged 6.3 per cent, compared with 5.7 per cent in the previous year. Average rises have accelerated steadily since 1993-94 (2.6 per cent). 1992-93, however, recorded 8.3% and rises were substantially higher before that; during the 1980s they averaged about 10 per cent.

Average termly fees are recorded in Tables 4 & 5, page 15. The former includes a regional breakdown of pupil numbers and average termly fees for full and weekly boarders and for day pupils in day and boarding schools. (Fees for day pupils in boarding schools are usually higher than day pupils' fees in day schools.) Table 5 compares percentage increases in average day and boarding fees (under school associations) over a five-year period with increases in inflation, measured by the Retail Prices Index (RPI), average earnings and teachers' pay (DfEE figures). (This table includes national awards but not incremental payments in teachers' percentage increases: it is not, therefore, a full representation of the real increases in teachers' pay.)

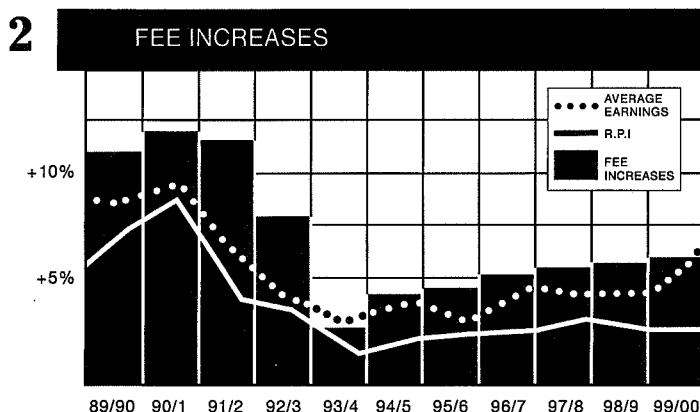

The RPI is an inadequate guide to education costs. Capital and labour costs constitute a far greater proportion of school budgets than the elements used to calculate RPI. Independent school fees must cover administration, maintenance and capital expenditure as well as tuition and other costs. These items are often overlooked when facile comparisons are made between per capita funding in the independent and maintained sectors. There is a gap between the two, but the difference is less than it appears because independent school fees pay for expensive items which are not included in per capita figures quoted for state schools; the full costs of an independent education – represented by the fees charged – are therefore more visible than those of a school funded by taxes.

Annual fee rises are determined chiefly by increased staff costs. ISC schools pay national awards or their own more generous scales, plus incremental scales. Salaries of teachers and other staff are the largest items of school expenditure, accounting for up to 80 per cent of a typical day school's costs and around 60 per cent in a boarding school.

The Government pay award to teachers in 1999 increased the basic scale by 3.5 per cent. As most teachers received not only this award but also incremental rises provided for in national agreements, many schools had an overall increase in their pay bill of seven per cent or even more.

Parents regard smaller teaching groups, and therefore greater individual attention for their children, as one of the principal attractions of independent schools. This is particularly true of schools with boarders. The 2000 Census records a further improvement in staff:pupil ratios (page 13). Fees are the price parents pay for generous staffing as well as updated facilities. Figures below record high levels of spending on new and improved facilities (and inflation in building costs).

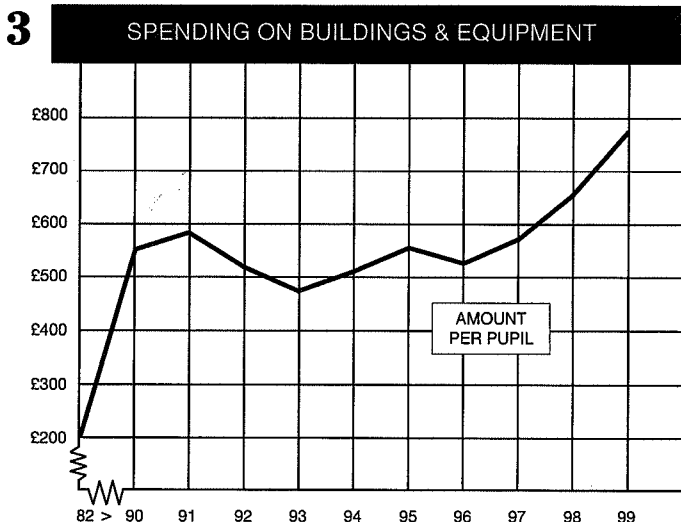

Graph 2 illustrates fee rises since 1989-90 against the background of the RPI and average earnings over the same period. Historically, teachers' salaries have often outpaced or matched the RPI through national awards alone, without taking incremental rises into account.

Investing in the future

Spending in total and per pupil on new and improved buildings and equipment is recorded in **Table 8, page 17** and **graph 3**. During 1999 schools spent £369.1 million, or £767 per pupil (compared with £314.3 million and £658 respectively in 1998). Total spending increased by 17.4 per cent.

Spending on new buildings far outstripped even the previous year's record: at £243.8 million it represented an increase of

28.7 per cent and £506 per pupil. These are the highest levels of investment in the fabric and facilities of schools ever recorded, reflecting expenditure on information and communications technology, updated boarding accommodation and new facilities as schools expand their age ranges or become coeducational. They also follow other substantial rises in recent years.

This expenditure is particularly remarkable since it coincides with the need for many schools also to devote additional resources to their scholarship and bursary funds to help more pupils who would previously have benefited from the government assisted places scheme (see below).

More help for pupils

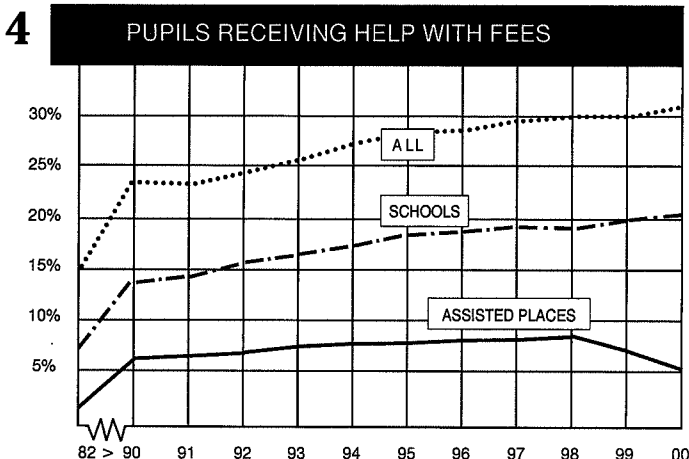

The number of pupils who are helped with school fees has increased despite the loss of more than 7,600 government assisted place-holders. The 152,448 children receiving help from various sources represent 31.7 per cent of all pupils in ISC schools, the highest ever recorded. This proportion has doubled since 1982. The increase on the previous year of 7.8 per cent is the largest since 1989.

As in the past, schools themselves give most help. Their scholarships and bursaries support 97,963 pupils (a rise of 4.5 per cent), who account for 20.4 per cent of all pupils.

The number of government assisted place pupils has dropped by 21.2 per cent to 25,530 (6.8 per cent of all pupils), reflecting the second year in which there has not been a new intake of pupils under the scheme. Assistance under the Government's nursery education grants scheme is identified for the first time; in the previous Census some children receiving nursery vouchers were included under 'all other known sources', a category which also includes educational charitable trusts. Details are given in **Table 7, page 17** and **graph 4**.

Boost for overseas recruitment

Table 9 on page 18 records *new pupils* from overseas who have joined schools since the previous Census day in 1999. This is not, therefore, the total number of overseas pupils.

Foreign pupils who arrived during the year totalled 8,012, compared with 7,294 in the previous year. This increase of 9.8 per cent represents a return to the level of overseas recruitment experienced during most of the 1990s (until economic turmoil and currency devaluation affected many of the East Asian countries which are traditionally among the strongest markets for British schools).

Recruitment from *East Asia* in particular has recovered strongly. Arrivals from Hong Kong increased by 32 per cent and they account this year for one-fifth of new foreign pupils. The elevation of Chinese over English as the medium of instruction in the former colony's schools has helped to increase demand for education in Britain. Mainland China is recorded separately for the first time: 464 pupils from the People's Republic already represent 5.8 per cent of new foreign pupils. (China was previously included in 'remainder of Far East'; this category cannot therefore be compared with last year.) The total East Asia proportion is 41.4 per cent (3,321 children), compared with 37 per cent in the previous year.

Continental Europeans represent the other large contingent of new foreign pupils (34.4 per cent; 2,759 students) and their number has grown by 6.3 per cent.

British independent schools are a great UK asset overseas. Foreign families are attracted by their high academic reputation, expertise in English language teaching, good discipline, examination results providing entry to British universities, and the pastoral care and broad range of activities available in the boarding schools which most of their children attend. ISIS research has found that two-thirds of foreign pupils at ISC schools remain in the UK for higher education.

The value to the British economy of the fees of overseas pupils in ISC schools is at least £188 million (**Table 9A, page 18**). Even more beneficial to the UK in the longer term is the establishment of strong links with new generations of well-educated foreigners who will occupy influential positions in their own countries.

Leavers after A-levels

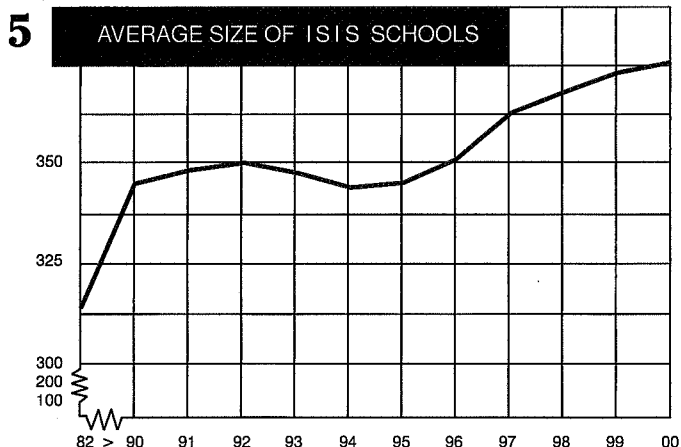

Table 10, page 19 shows that more than 90 per cent of independent school-leavers proceed to higher education after taking A-levels or other sixth-form qualifications. It does not record those (relatively few) who leave immediately after GCSE. Three associations – GBGSA, GSA and ISA – include some schools which do not have sixth-forms: their statistics reflect that fact. The table probably understates higher education entries because schools may lose touch with some leavers who defer university entry.

Size of schools; Boarding/day; Boys/girls

Table 11, page 19 records sizes of schools. Each figure under the association headings represents the number of schools whose total pupil rolls are within the stated range. The average size of an ISIS school is 378. See **graph 5**.

Table 12, page 20 shows percentages of boarders: for example, there are 36 schools across all associations with 90 per cent or more boarders.

Table 13, page 20 gives boy/girl ratios. For example, there are 150 all-boy schools and 204 all-girl schools; the others are mixed in varying proportions.

General & association tables

All the general tables are on pages 13 to 20. Those which follow (pages 22 to 35) relate to separate associations of schools. **Please note the initials at the top of each page.**

Multiple membership of associations

Every school included in the Census must belong to at least one of the constituent associations of ISC. Many schools belong to more than one. In the general tables on pages 13 to 20, each school is recorded under one association only.

This avoids counting the same school and its pupils more than once, but produces distortions in the apparent size of associations.

For example, the Society of Headmasters and Headmistresses of Independent Schools (SHMIS) appears to have only 65 members. Its full membership on Census day was 90, but some of its heads are also members of other associations (chiefly HMC) and their schools' statistics are recorded under these associations in the general tables. Similarly, there are 29 schools in the Independent Schools Association (ISA) which also belong to other associations and do not appear under ISA in the general tables.

Governing bodies of schools whose heads are members of GSA, HMC or SHMIS belong to either GBGSA or GBA. (The very small number of schools in the governors' associations whose heads do not yet belong to an association of heads appear in the general tables separately under GBGSA or GBA; these heads are in the process of applying for membership of one of the heads' associations.)

In association tables (on pages 22 to 35), ALL schools in SHMIS, GBA, GBGSA and ISA are included in the statistics for those associations. In this way their strength is fully represented. These four associations are the ones mainly affected by multiple membership.

Acknowledgements

This year 1279 schools returned their Census forms. We are grateful to the heads, deputy heads, bursars, secretaries and other members of staff who provided the information.

Julian Bewick and his assistants at **Monkton Combe Computing Service** devoted many hours of patient and careful work to this survey. They must be congratulated on producing a document which is valued by schools, journalists, academic and media researchers, politicians, civil servants and others for the detailed information it provides on the major part of the independent sector.

All independent schools

Statistics for all independent schools in Great Britain, based on data from the Department for Education & Employment (for England), the National Assembly for Wales and the Scottish Executive Education Department, are available from:

April 2000

ISIS CENSUS 2000 : SUMMARY TABLES

TOTAL NUMBER IN CENSUS 2000 (see Table 1)

	Number	Percentage of total
Schools in census	1,279	99.9%
Total member schools	1,280	100.0%
Charities	1,054	82.4%
Limited companies	109	8.5%
Proprietary	117	9.1%

PUPILS

Boarders	Total	69,525	14.4%
	Boys	41,110	8.5%
	Girls	28,415	5.9%
Day	Total	414,527	85.6%
	Boys	210,373	43.5%
	Girls	204,154	42.2%
All	Boys	251,483	52.0%
	Girls	232,569	48.0%
TOTAL		484,052	100.0%

Schools in Census: 1,279 ISC-member schools are included in the 2000 survey, recorded on Census Day 20 January. ISC schools are those in membership of the associations of governors, heads and bursars representing the majority of UK independent schools. The 484,052 pupils recorded in them in January 2000 account for 80% of the total number of pupils in independent schools in the UK, which is more than 600,000.

Day/Boarding: The Census shows that 85.6% of ISC school pupils are day boys and girls, 14.4% are boarders. The proportion of day pupils has been swollen during the last two decades by the growth of the independent nursery sector. The boarding proportion has been declining steadily for most of the post-war period: in 1982, for example, 27% of pupils were boarders. (Full and weekly boarders are counted together.) Occasional boarding by day pupils is recorded separately in Table 3A on page 14: 24,778 day pupils (an increase of 76.3% compared with 1999) spent 133,445 nights in school during the year (an average of 5.4 each).

Boys/Girls: 52% of pupils are boys, 48% girls. The proportion of girls has increased every year since the ISIS Census was established on its present comparative basis in 1982, when they represented only 41.7% of the total.

CHANGES SINCE 1999 (see Table 2)

		Number	% Change on 1999
Number of schools compared		1,267	
PUPILS			
Boarders	Total	69,364	-2.65%
		71,252	
	Boys	41,020	-3.16%
		42,359	
	Girls	28,344	-1.90%
		28,893	
Day	Total	411,832	+1.40%
		406,132	
	Boys	209,131	+1.11%
		206,828	
	Girls	202,701	+1.70%
		199,304	
All			
	Boys	250,151	+0.39%
		249,187	
	Girls	231,045	+1.25%
		228,197	
TOTAL		481,196	+0.80%
		477,384	

CHANGES SINCE 1999 (see Table 2)

Tables 2-9 compare 1,267 ISC schools which were included in the 1999 and 2000 surveys. In Tables 2 & 3 on pages 13/14, for example, the 2000 figures are shown in bold type, with 1999 figures below and the percentage changes in italics.

The increase in the total number of pupils is the fifth in succession. The number of day pupils has increased by 5,700 (1.4%) and the number of boarders has dropped by 1,888 (2.6%), giving a net increase of 3,812 (0.8%), slightly more than in the previous year.

Numbers have risen in 13 of the 18 years of the ISIS Census in its present form. Previous years' figures during the past decade were: 1999 +0.7% (net gain 3,398 pupils); 1998 +1.6% (net gain 7,421); 1997 +1.7% (net gain 7,640); 1996 +0.6 (net gain 2,877); 1995 -0.1% (net loss 509); 1994 -1.0% (net loss 4,476); 1993 -1.5% (net loss 6,973); 1992 -0.2% (net loss 1,065); 1991 +0.7% (net gain 3,079); 1990 +1.0% (net gain 4,638).

AGE COHORTS (see Table 3)

Aged on 31 Aug 1999	Number	% Change on 1999
2	5,519	+1.7%
3	13,602	+1.2%
4	19,889	+0.8%
Cumulative 2-4	39,010	+1.1%
5	21,278	+5.8%
6	21,440	+0.9%
7	25,403	+2.2%
8	27,768	+1.6%
9	29,625	+1.5%
10	31,459	+1.8%
Cumulative 5-10	156,973	+2.2%
11	40,525	+3.1%
12	40,823	-1.3%
13	42,173	-0.3%
Cumulative 8-13	212,373	+0.9%
14	42,942	+2.6%
15	42,016	-0.3%
Cumulative 11-15	208,479	+0.7%
16	37,297	-0.4%
17	34,190	-3.7%
18	3,872	-0.4%
19	508	-10.2%
Cumulative 16-19	75,867	-2.0%

AGE COHORTS (see Table 3)

This table indicates the number of children by age between 2 and 19 and the change compared with the previous year, with cumulative figures for the main educational stages.

While growth has continued in the nursery sector, the cumulative increase of 1.1% among under-5s is the smallest ever recorded, suggesting that nursery departments are approaching full capacity. In the 5-10 age group the cumulative rise is 2.2%. There is an increase of 0.9% in the main preparatory age range 8-13. The 11-15 cohort has increased in size by 0.7%. This is the first rise in this age group since 1992, indicating that the post-recession increase in junior school numbers is working through into the higher age range. Among 16-19 year-olds there is a cumulative drop of 2.0% (slightly smaller than in the previous year).

There are increased pupil numbers at eleven of the eighteen ages.

FEES (see Tables 4 & 6)

Average termly fee	£	% Change on 1999
Boarding	£4,447	+5.8
Weekly boarding	£3,764	+6.1
Day fee/boarding schools	£2,286	+6.6
Day fee/day schools	£1,759	+6.5
Day fee average	£1,941	+6.6
Overall average	£2,285	+6.3
Inflation (RPI) Jan-Dec 1999		+2.0
Average earnings Jan 1999 - Jan 2000 (prov.)		+6.5
Teachers' pay April 1999 - March 2000		+3.5

FEES (see Tables 4, 5 & 6)

The average rise in fees was 6.3%, compared with 5.7% in the previous year.

Note that the averages above are for schools of various types across the full age range (whereas it is generally true that fees for younger pupils are less than those for older ones). Averages for day and boarding within particular types of school are more clearly differentiated in Tables 4 & 5. Note also the differences between day fees in entirely day schools and the higher day fees in schools with a mixture of day and boarding pupils: schools of the latter type will usually have a longer school day and week.

Comparisons are made in Table 5 between fee increases and factors such as inflation, average earnings and teachers' pay. The single most relevant comparison is with teachers' pay awards and incremental rises. Fees chiefly reflect: generous staffing (this Census records a further improvement in staff:pupil ratios); rising salaries and wages of teaching and non-teaching staff, most of which are beyond the direct control of schools which pay at least the nationally-agreed awards and incremental scales. Teachers' incremental rises add substantially to schools' salary bills; investment in buildings, facilities and equipment, which continues at high levels, as well as the rising cost of goods and services bought by schools.

HELP WITH FEES (see Table 7)

Pupils receiving help from	Numbers	% of all pupils	% Change on 1999
Local education authorities	1,886	0.4%	-13.0%
Northern Ireland & Channel Islands	7,817	1.6%	+11.3%
The school	97,963	20.4%	+4.6%
Government AP scheme	25,530	5.3%	-21.2%
Gov't Nursery Education Grants	14,584	3.0%	
All other known sources	4,668	1.0%	-23.8%
Total	152,448	31.7%	+7.8%

HELP WITH FEES (see Table 7)

The increasing number of children receiving help with their fees is a long-term trend; it accelerated during the early 1990s' recession as more families needed bursaries from schools to enable pupils at crucial examination stages to complete their courses. It has been boosted in the last two years by schools providing more financial help to compensate for the loss of government assisted places. This year there is an increase of 7.8% in the number of pupils receiving help, the largest since 1989. The proportion of children receiving help from various sources is 31.7%, the highest ever recorded. (In 1982 the proportion was 15.8%).

School bursaries and scholarships now help 20.4% of all pupils, an increase of 4.6%.

Assistance under the Government Nursery Education Grants scheme is recorded separately for the first time. In the previous Census, some children receiving nursery vouchers were included under 'all other known sources', a category which also includes educational charitable trusts.

NEW BUILDINGS & EQUIPMENT (see Table 8)

	Amount	% on 1999
Amount spent on new buildings		
Total (£m)	243.8	+28.7%
Per pupil (£)	506	+27.7%
Amount spent on improvements to buildings & equipment		
Total (£m)	125.3	+0.3%
Per pupil (£)	260	-0.5%
Total		
Total (£m)	369.1	+17.4%
Per pupil (£)	767	+16.5%

BUILDINGS & EQUIPMENT (see Table 8)

During 1999 schools spent £369.1 million on new and improved buildings and equipment, 17.4% more than in 1998. This was equivalent to £767 per pupil, 16.5% more than in the previous year.

Spending on new buildings was particularly high (£243.8 million, or £506 per pupil) and showed an increase of 28.7%.

These increases are among the highest levels of investment in the fabric and facilities of schools ever recorded and follow other substantial rises in recent years.

NEW PUPILS FROM OVERSEAS/ARMED FORCES (See Table 9)**New pupils who joined Jan 1999 - Jan 2000**

NEW FOREIGN & EXPATRIATE PUPILS (see Table 9)

These are pupils who joined ISC schools between January 1999 and January 2000 – NOT the total number of foreign and expatriate children, which is obviously much greater.

The Census records more than 8,000 foreign pupils arriving during the year – an increase of 9.8%. This represents a return to the level of overseas recruitment experienced during most of the 1990s (interrupted only by the financial turmoil affecting many of the East Asian countries which are traditionally among the strongest markets for British boarding schools).

Far East recruitment in particular has recovered strongly, with a 32% increase in arrivals from Hong Kong (who account this year for one-fifth of new foreign pupils). Mainland China is recorded separately for the first time and already provides 5.8% of new foreign pupils. (The People's Republic was previously included in "remainder of Far East"; this category cannot therefore be compared with last year.) The total Far East proportion is 41.4% (3,321 children), compared with 37% in the previous year. Continental Europeans represent the other large contingent of new foreign pupils (34.4%; 2,759 students) and they have grown in number by 6.3%.

The table above records the number of new foreign pupils from the continents, regions or countries indicated, the proportion of foreign pupils which each represents, and the percentage change since 1999.

The Census also records new British expatriate children, including those whose parents are serving in the armed forces.

POST A-LEVEL LEAVERS

Total no	36,962
% to university	85.5%
% to other HE	4.7%
% of Univ. entrants to	
Arts	25.5%
Science	24.6%
Engineering/tech	8.9%

NOTES

- Inflation rates are from January to January, based on the increase in the Retail Prices Index.
- Earnings figures are the increases in average earnings January to January. (Department of Employment). The 1999 earnings figure is provisional.
- The latest Teachers' Pay figure is the 1999 national award paid in April. Incremental rises increase this to 7% for many schools.
- A table showing the range of maximum termly fees is printed on page 16.
- Average fees are 'average fee per pupil', rather than 'average fee per school'.
- * Figures omitted. They would be misleading because of the small number of schools which are members of GBA and GBGSA and of no other association.

TABLE 6
RANGE OF FEES

Numbers of schools whose maximum termly fees are within £50 of the figures shown

NOTES

- i) Contributions from Local Education Authorities include help given for special needs.
- ii) Help given by the Government to pupils in Northern Ireland is separate from Contributions from Local Education Authorities.
- iii) This table does not include pupils helped through HM Forces and Diplomatic allowances.
- iv) This table does not include help given to children of staff.
- v) Children benefiting from Government Nursery Education Grants were included in "From all other known sources" in 1999.

NOTE

N.B. In previous years mainland China was included in 'Remainder of Far East'.

TABLE 9A**FEES PAID FROM OVERSEAS SOURCES**Figures for 2000 are printed in **BOLD** type, those for 1999 are shown below.

	Pupils	Fees/Year
Day pupils	1,030	7,311,300
	727	5,220,600
Weekly boarding pupils	112	1,201,500
	111	1,151,700
Full boarding pupils	14,097	179,592,600
	13,955	166,900,200
TOTAL	15,239	188,105,400
	14,793	173,272,500

Note on Table 9A

Schools submitted the number of pupils and total termly fee for the January Term. These fees have been multiplied by three to obtain annual figures.

The following pupils have been **Included**: foreign nationals who live overseas; UK citizens who have worked continuously in an overseas country for one year or more.

The following pupils are **excluded**: pupils whose fees are paid by UK military personnel who are employed abroad; UK civil servants (including diplomats) who are employed abroad in British embassies; overseas nationals who have been resident in UK for one year or more; overseas civil servants (including diplomats) who work in embassies or high commissions in UK.

NOTES ON TABLES FOR INDIVIDUAL ASSOCIATIONS

Tables on the following pages show changes that occurred between January 1999 and January 2000.

In order that fair comparisons can be made, only those schools which completed the census in BOTH years have figures included in the tables.

Figures given in the following tables are for ALL the schools in each association. Some schools belong to more than one association (eg all HMC schools are also in GBA).

GSA figures include pupils from one school which is also a member of HMC.

HMC figures include pupils from one school which is also a member of GSA.

IAPS figures include pupils from some all-age schools whose Junior School Heads are members of IAPS.

A few schools changed the associations to which they belong during the year between the two census days. Their figures are included in tables for their current associations.

Age ranges for schools in England, Wales and Ireland are calculated using 1st September as a base. Those in Scotland use 1st January.

Tables 14A to 20A show numbers of pupils in the schools. Current numbers are shown in normal print, with last year's figures printed below in italics. Percentage changes are printed as the third line of each group of three lines. In cases of large percentage change, it is wise to look at the figures above to see if the change is significant.

TABLES 14B to 20B show the numbers of pupils and the average fees by areas. A blank entry in a fees or numbers column indicates that there is no school of the relevant category in the area. A blank in the per cent change row means there is no significant change.

TABLES 14C, D and E to 20C, D and E deal with staffing.

TABLES 14F and G to 20F and G deal with numbers and courses of study of sixth form pupils.

TABLES 14H, I and J to 20H, I and J show the sources of entry and destinations of leavers. Proportions shown in each category are believed to be accurate, but total numbers are higher than those shown. These tables are amongst the most difficult for schools to complete accurately as sources and destinations are not always known.

TABLES 14K to 20K deal with occasional boarding by day pupils. The left column shows the number of pupils at each age group (ages 0 - 4, 5 - 7, 8 - 11/13, 11/13 - 15, 16+) and the right hand column shows the total number of nights spent boarding during the year.

TABLES 14L to 20L show the number of member schools, and the number of schools which completed the census last year and this year. The left hand column shows numbers for schools whose only membership is of the association; the right hand column includes all schools which are members of the association.

TABLES 15M to 20M show the number of pupils whose fees are paid from overseas sources and the total **TERMLY** fee paid for the January term 2000.

TABLE 14A
NUMBER OF PUPILS IN JANUARY 2000 AND
CHANGES SINCE 1999

Figures for 2000 are printed in **BOLD** type, those for 1999 are printed below them.

INDEPENDENT SCHOOLS INFORMATION SERVICE

Grosvenor Gardens House, 35-37 Grosvenor Gardens, London SW1W 0BS

Phone 020 7798 1500 Email national@isis.org.uk

Joint National Directors : D. J. Woodhead & R.C. Davison

NATIONAL ISIS was established in 1972 as an information centre by the leading associations of independent schools in Britain. It is now part of the Independent Schools Council, acting as its information and media arm.

It publishes leaflets and booklets on various aspects on independent education (see outside back cover) and *The ISIS Guide to Accredited Independent Schools*, a paperback guide (with CD-Rom) to 1,300 day and boarding schools for boys and girls aged 2 - 19 in the UK (and a few in the Republic of Ireland). Its Press Office handles relations with the media.

There are eight ISIS regions covering the entire British Isles which publish handbooks giving details of schools in their areas.

The Friends of Independent Schools organisation exists to champion the cause of independent education and defend it against attack. The annual subscription is £9.00 for UK members and £12.00 for overseas members. For further details, please write to the above address.

ISIS International helps parents living overseas and in the UK to find suitable schools for their children. It operates a consultancy service for multi-national companies whose staff require independent schools for their children. For details, please write to the Senior Consultant, ISIS International, at the above address.

NATIONAL ISIS PUBLICATIONS

THE ANNUAL CENSUS 2000 -- this booklet. Price £15 (including postage). Back numbers: 1999 £10, others £3.50 each (including postage).
