

Risk assessment: CTLPS

NCTPHQ

30/06/15

What is a CTLP?

- A product that identifies threat & vulnerability from terrorism and extremism at a local level
- Assists police and partners to prioritise threat and vulnerability
- Suggests recommendations to address risk
- A key tool for driving a two-way sharing of information

Purpose of CTLP

- Joint understanding with local partners of terrorism related threats, risks & vulnerabilities
- Provide information to base local Prevent programmes & drive Action Plans
- Promote 2-way flow of community information
- Mainstreaming of Prevent activity into daily delivery across all sectors
- Strengthen local partnerships
- Targeted and proportionate use of shared resources

Basic current format

- CT picture for specific locality
- Information on Community Tensions
- The context of threats from other forms of extremism
- An international perspective
- Cross boundary issues

Key Stakeholders

- Regional Prevent Coordinators
- Local Authority
- National Offender Management Service
- Dept. of Education
- NHS Trusts
- Business Innovation & Skills (BIS)
- OSCT
- Regional CT Analyst advisors

Risk assessment

Are organisations aware of the need to:

- Assess individuals believed at risk of radicalisation
- Contribute to CTLP

Are staff aware:

- Healthcare professionals will meet and treat people who may be vulnerable to being drawn into terrorism.
- Where to turn to discuss their concerns?
- How to refer somebody for risk assessment?
