

Year 11 Exam Results 2019 Summary

In the week following the publication of the Year 11 exam results, data was collected from **574** schools. For the first time this year, we have analysed the data on a like-for-like basis to allow for a better comparison year-on-year. What follows is a summary of the **512** schools that submitted results in both 2018 and 2019. This is based on the first provisional data and is subject to change due to appeals and reviews of results.

Nearly a quarter of all entries were graded 9, more than five times the national average

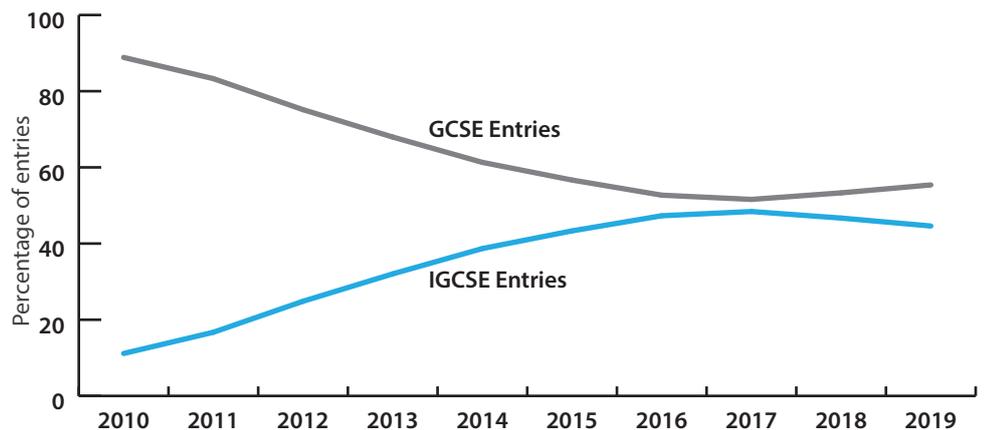

23.1% of entries were awarded a grade 9 this year and this compares to **4.5%** of results nationally. In 2018, **20.6%** of entries were awarded a grade 9.

If we consider entries graded 9/8/A*, **42.9%** were awarded at this level compared to **10.9%** nationally and **41.8%** in 2018. **95.6%** of entries achieved a grade C/4 or better, compared to **67.3%** nationally and **95.5%** last year.

Note: 510 ISC schools entered candidates for 9-1 GCSEs/IGCSEs
¹Source: The Joint Council for Qualifications (JCQ) (GCSEs only)
 ISC's figures include GCSE and IGCSE results

IGCSEs still account for nearly one half of all entries but there has been a shift to GCSEs this year

This year, IGCSEs made up **45.3%** of all entries but this is down compared to the **47.0%** of entries that were IGCSEs last year.

Based on information from ISC's Year 11 exam results for each year, not on a like-for-like basis

The analysis above is based on **350,937** entries and **37,389** candidates. Each candidate therefore took an average of **9.4** GCSEs. For some statistics, it is possible to express them in terms of candidates. For example, **74.4%** of candidates had at least one grade 9/8/A* (compared to **74.3%** last year).
