- NOTES
- (1) The statistics are based on the returns which represent almost a 100% response from schools in membership of ISIS. In 1975 the few girls schools belonging to GBGSA were added to GSA schools; this year the two categories are shown separately and should again be added together for comparing the two years. 5 more GSA/GBGSA and 8 more AHMPS schools have sent in returns.
  - (2) The staff ratios for HMC, SHMIS and GSA schools are 'weighted' with each sixth-form pupil counted as two. The figures represent the average ratio for each category of school.
  - (3) The overall totals of these three categories and of GBGSA are for the secondary level. In addition many of the schools have Junior/Lower departments which are not members of IAPS/AHMPS. The figures are - HMC 10,511 boys, 1690 girls; SHMIS 288 boys, 121 girls; GSA 659 boys, 17,833 girls; GBGSA 120 boys, 1415 girls. Total - 32,637, which makes the GRAND TOTAL as given by the Census 331,209.
